

## ASIAN SMOKEHOUSE

(Please order at the bar)

### About Our Cuisine

Our goal is to combine the ingredients and flavors of Japanese and Asian cuisine with down south smokey barbeque culture.

Our on-site smoker slow roasts an assortment of meats to create savory dishes. Just taste any of our baos or dishes that say house-made.

We use sake as a key ingredient in most of our recipes to enhance our flavors. We use koji as the main ingredient in our house made sauces and it gives our dishes a unique depth and umami that lingers well after the first bite.

Sake also pairs wonderfully with an assortment of foods. Look for more acidic sakes like our Real Magic when pairing with fatty foods and sweeter sakes like Socky to balance saltier foods. Sake aromatics mix wonderfully with most flavor profiles.

Just like our name and our sakes, we pull the best of the local ingredients, varied styles, and ancient traditions that inspire us to make something new and unexpected. *Kanpai!*

### APPETIZERS (made for sharing)
